

Lecture Series – Pitfalls and Solutions

Good Experimental Design

The research management of the Faculty of Medicine invites qualified speakers to this lecture series to give a talk about good experimental design. The invited researchers will give you information on specific research topics and provide discussion opportunities with the goal to improve quality and reproducibility of your research data.

Target group: Clinician scientists and experimental scientists who are actively involved in lab research
Venue: Seminar room window, ZTZ, Breisacher Str. 115
Time: 17:00-18:00

Date	Venue	Topic
29 July 2020 5.00 pm	Video conference via ZOOM	Next Generation Sequencing Speakers: Prof. Bodo Grimbacher and Prof. Michele Proietti, Institute for Immunodeficiency
14 October 2020 5.00 pm	Video conference via ZOOM or Seminarraum Fenster, ZTZ, Breisacher Str. 115	Epigenetics and Gene regulation Speaker: Prof. Marc Timmers, Department of Urology, German Cancer Consortium
09 December 2020 5.00 pm	Video conference via ZOOM or Seminarraum Fenster, ZTZ, Breisacher Str. 115	Conception and Planning of a Research Project Speaker: Prof. Jürgen Hennig, Department of Radiology

Organised by the Office of the Dean for Research, Faculty of Medicine, University of Freiburg
