

MEDEP Fellow 2022

The MEDEP Fellow is the Young Investigator Award at the Collaborative Research Centre 992 Medical Epigenetics “MEDEP”.

The CRC 992 is identifying highly talented and successful scientists who are in the transition phase from post-doc to group leader.

Each award is 30.000 Euro and supports a project in the broad area of epigenetics, from basic research to clinical applications. Successful awardees will become associate members of CRC 992.

Applications must include a CV, project proposal (max. two pages), a simple spending plan and a support letter of the respective PI. Suitable candidates will be shortlisted and will be requested to present their project to the CRC 992 board.

Female scientists are especially encouraged to apply.

Please send applications until latest June 12th 2022 to Stefan Kass at stefan.kass@uniklinik-freiburg.de whom you may also contact for further information.
